ABOUT ME

Motivated and detail-oriented Information Technology graduate with experience in data analysis, reporting, and student enrollment management. Skilled in Excel, Python, SQL, and Power BI for data cleaning, visualization, and reporting. Strong analytical thinking, communication, and teamwork skills with a passion for data-driven decision-making.

WORK EXPERIENCE

Data Coordinator / Staff
National University of Battambang, Battambang
September 2023 – Present

Career Progression

- Started as a **Weekend Volunteer** for 1 year, 3 months
- Promoted to **Weekend Staff** for 9 months
- Advanced to a **Full-Time Staff** position based on strong performance and commitment

Key Responsibilities

- Managed student enrollment data for all academic levels, ensuring data accuracy and maintaining the system.
- Retrieved data using SQL (MySQL), then cleaned and analyzed datasets to support reporting and data-driven decision-making.
- Prepared student lists, GPA reports, and statistical reports, and analyzed student data for all years to identify trends (increase/decrease) for Semesters 1 and 2.
- Developed reports and data visualizations using Excel, Python and Power BI, presented insights to university management.
- Coordinated with Verify.gov.kh to verify graduate records and facilitate degree certificate printing.
- Supported data tracking, reporting, and continuous improvement of data quality and operational processes.

LANGUAGES

- Khmer(native) ★★★★★
- English ★★☆☆☆
